On January 28th the lake temperature was 6 C (42.8 F) and the particle count is higher than normal. There is no surface scum and she believes that it is no hazard.

Beach Lot Report:

The Polar Plunge video that Val created is exceptional and on the following site:

1. <https://bit.ly/3SO0ECf>
2. <https://www.anglelakemanor.com/gallery.htm> There are lots of individual photos from the day as well.
3. <https://www.facebook.com/groups/anglelakemanor/> is the website to join if you have not.

More sand is needed. Carole McGlamery has volunteered 6 bags from the City of SeaTac Public Works and Kathy Stewart will contact them for at least 18 more.

Jonathan Standridge has procured 3 bids for the beach lot platform dock replacement ranging from \$5,668.12 – \$11,553.00. These bids are based on “we build” to having a

contractor “build”. Fundraising may need to be done. Jonathan will get a 4th bid and we are looking for volunteers to help build it ourselves as we could save quite a bit of money that we do not have at this point. Please contact Tani Rae if you are willing to help.

A Q code for the Beach Lot gate was discussed to have instead of keys for access.

The beach lot Restrooms will have a mural painted by Tani Rae and Deb Anderson.
